	Company's Rates and Charges for Gas)	STABILIZATION ACT

I. INTRODUCTION

This matter comes before the Public Service Commission of South Carolina (the Commission) pursuant to S.C. Code Ann. Section 58-5-455, a portion of the Natural Gas Rate Stabilization Act, as related to South Carolina Electric & Gas Company (SCE&G or the Company). Order No. 2005-619 established a baseline for the Company under the Act. Section 58-5-455 sets out a procedure for the handling of monitoring reports under the Act related to the quarter ending March 31.

Briefly, under Section 58-5-455 the Company files the monitoring reports with the Commission and the Office of Regulatory Staff (ORS). Parties may comment on the reports. Where it appears to the Commission or ORS that an adjustment in rates may be warranted, ORS shall conduct an audit of the monitoring report and specify any changes that it determines are necessary to correct errors in the report or to otherwise bring the report into compliance with the statute. Parties may comment on the ORS audit. On or before October 15, the Commission shall issue an initial order setting forth any changes

required in the utility's request to adjust rates under the statute. Any gas rate adjustments authorized under the terms of the statute shall take effect for all bills rendered on or after the first billing cycle of November of that year. This present order is the "initial order" contemplated by S.C. Code Ann. Section 58-5-455 for SCE&G.

Pursuant to the South Carolina Natural Gas Rate Stabilization Act ("Act"), SCE&G submitted its quarterly monitoring report for the twelve-month period ending March 31, 2007, as well as the required revenue deficiency calculations and proposed changes to its tariff rates necessary to permit SCE&G the opportunity to earn the rate of return on common equity established in its last general rate case as specified in Section 58-5-420(1).

According to its Application, SCE&G indicated that \$6,868,824 in additional revenues is required to permit SCE&G the opportunity to earn a rate of return on equity equal to the approved rate of return on equity adopted in Docket No. 2005-113-G, SCE&G's last general rate case.

The ORS conducted a review of SCE&G's Monitoring Report for the twelve-month period ending March 31, 2007, to evaluate compliance with Section 58-5-430 and Section 58-5-440 of the Act. The ORS proposed certain adjustments to reported amounts to bring the report into conformance with those Sections. As a result of these adjustments, the ORS calculated the as adjusted return on rate base and return on common equity to be 7.62% and 8.83%, respectively, and proposed that, in accordance with guidelines of the Act, the Company is entitled to an increase in rates and charges sufficient to achieve a return on common equity of 10.25% authorized in their most

recent rate case. Accordingly, ORS recommended that the Company's increase be reduced by \$2,313,202, resulting in an increase to revenues of \$4,555,622. After the proposed increase, the Company's return on rate base and return on common equity would be 8.38% and 10.25%, respectively.

SCE&G filed written comments advising the Commission that it agrees with the proposed adjustments reflected in the ORS Audit Report. Additionally, SCE&G filed proposed rates and charges reflecting the findings of the ORS Audit Report.

We have examined the accounting and pro forma adjustments proposed and agreed upon by the parties, and we take no exception to them.

II. FINDINGS AND CONCLUSIONS

1. S.C. Code Ann. Section 58-5-455, a portion of the Natural Gas Rate Stabilization Act, requires the filing of certain documents and the issuance of this Initial Order.

2. Changes are required to the Company's request to adjust rates.

3. ORS has suggested certain changes to which SCE&G does not object, as outlined above. Based on the accounting adjustments, an increase of \$4,555,622 is appropriate.

4. This Commission has found no other changes appropriate or necessary other than those agreed to by the parties.

5. This Commission adopts the changes and adjustments proposed by the parties and the resulting rates and charges, said rates and charges being attached hereto as Exhibit A.

6. The rates shall be effective for bills rendered on and after the first billing cycle in November 2007.

7. This Order shall remain in full force and effect until further Order of the Commission.

BY ORDER OF THE COMMISSION:

G. O'Neal Hamilton, Chairman

ATTEST:

C. Robert Moseley, Vice Chairman

SOUTH CAROLINA ELECTRIC & GAS COMPANY WEATHER NORMALIZATION ADJUSTMENT

APPLICABILITY

This Weather Normalization Adjustment (WNA) is applicable to and is a part of the Company's firm gas rate schedules 31, 32V, 32S, and 33. The commodity charges per therm for each customer account during the billing months of November through April will be increased or decreased in an amount to the nearest one-thousandth of a cent, as derived by the following formula:

$$\text{WNA} = \frac{\text{WSL} \times \text{R}}{\text{ATH} - \text{BTH}}$$

$$\text{Where: WSL} = \frac{\text{ATH} - \text{BTH}}{\text{ADD}} \times (\text{NDD} - \text{ADD})$$

WNA = Weather Normalization Adjustment factor for a particular account expressed in dollars per therm.

WSL = Weather Sensitive Load which is the difference in the amount of therms that would have been consumed by the customer during normal weather and the amount of therms actually consumed.

R = Approved rate less cost of gas for applicable rate schedule determined as follows:

<u>Rate 32V</u>	<u>Rate 32S</u>
R= \$0.36604 R= \$0.37617	R= \$ 0.42604 R= \$ 0.43617
<u>Rate 31</u>	<u>Rate 33</u>
R= \$ 0.45383 R= \$ 0.4619	R= \$ 0.40383 R= \$ 0.4119

ATH = Actual therms consumed by customer during current billing period.

BTH = Base load therms which is the average of the therms consumed by customer during the previous billing months of June, July and August. If BTH is greater than ATH, then BTH will equal to ATH. If base load therms cannot be determined, then base load therms will be as follows:

Rate 32V = 18 therms
Rate 31 = 19 therms

Rate 32S = 4 therms
Rate 33 = 739 therms

NDD = Normal heating degree days during customer's billing period authorized by the Commission.

ADD = Actual heating degree days during customer's billing period.

The appropriate revenue related tax factor is to be included in these calculations.
